Acemetacin, in rheumatic arthritis, compared with indomethacin	332
Amitriptyline, oral, in depressive illness, compared with intramuscular flupenthixol	51
Amiloride/bumetanide, in congestive cardiac failure	151
Amosulalol, in hypertensive diabetics, antihypertensive and metabolic effects	564
Amoxycillin, in acute maxillary sinusitis, compared with clarithromycin	19
—, in community-acquired pneumonia, compared with cefetamet pivoxil	631
Atenolol, in ischaemic heart disease	485
—, in hypertensive diabetics, effect of long-term treatment on microalbuminuria	516
—/nifedipine, in hypertension, dose-finding study	108
—/—, —, long-term treatment in the elderly	66
Back support ('Lumbotrain'), in non-specific low back pain	604
Bencyclane, in peripheral occlusive disease, long-term tolerability	356
Budesonide, in asthma, changes in patient symptoms and lifestyles with treatment	198
—, in seasonal allergic rhinitis, once daily treatment	287, 507
Bumetanide/amiloride, in congestive cardiac failure	151
Buprenorphine, in post-operative orthopaedic surgery pain, compared with ketorolac	343
Captopril, in congestive cardiac failure, effect on glucose tolerance in elderly patients	374
Carbaryl lotion, in head louse infestation, compared with phenothrin liquid shampoo	466
Cefetamet pivoxil, in community-acquired pneumonia, compared with amoxycillin and cefaclor	631
—, —, in diabetics with urinary tract infections	304
—, —, in acute pyelonephritis	43
Cefuroxime axetil, in uncomplicated urinary tract infections	304
Chlorthalidone/triamterene, in hypertension, effects on blood pressure, serum potassium and electrolytes	430
Choline magnesium trisilicate, in rheumatoid arthritis, compared with enteric-coated aspirin	71
Clarithromycin, in acute maxillary sinusitis, compared with amoxycillin	19
—, in streptococcal pharyngitis, compared with erythromycin	25
Clotrimazole, in vaginal candidiasis, compared with fenticonazole in single-dose therapy	114
Diclofenac dispersible, in elderly patients with osteoarthritis	459
Diclofenac potassium, in ankle sprains, compared with piroxicam	268
Diclofenac sodium, in renal colic, compared with a dipyrone/spasmolytic combination and with pethidine	366
—, sustained-release, in osteoarthritis, compared with controlled-release indomethacin	135
—, —, in rheumatoid arthritis, compared with controlled-release indomethacin	143
Diltiazem, in coronary heart disease, compared with fendiline	521
Dothiepin, in mixed affective disorders, compared with trazodone	34
—, in depression, compared with flupenthixol	191
Elbow support ('Epitrain'), in acute painful conditions	224
Enoxacin, <i>in vitro</i> activity against multi-resistant strains of <i>Salmonella typhi</i>	560
Erythromycin, in streptococcal pharyngitis, compared with clarithromycin	25
Etizolam, in panic disorder with agoraphobia	185
—, in generalized anxiety disorder	215
Etodolac, in acute gout, compared with naproxen	423
—, in osteoarthritis, compared with indomethacin	309
—, —, compared with piroxicam	255, 401
—, in rheumatoid arthritis, compared with piroxicam	497

Felodipine, extended release, in mild to moderate hypertension	275
Fendililene, in coronary heart disease, compared with diltiazem	521
Fenticonazole, in vaginal candidiasis, compared with clotrimazole in single-dose therapy	114
Fish oil, eicosapentaenoic acid rich, in stable angina pectoris	1
Flumazenil, use with midazolam, in paediatric bronchology	552
Flufenamic acid, gel, in soft tissue injuries, compared with naproxen gel	249
Flupenthixol, intramuscular, in depressive illness, compared with oral amitriptyline	51
—, oral, in depression, compared with dothiepin	191
Flurbiprofen, in rheumatoid arthritis, compared with naproxen	76
Fluvoxamine, in depression, compared with imipramine	177
—, —, compared with mianserin	234
Furosemide/spironolactone formulations, bioequivalence	450
Gangliosides, in post-herpetic neuralgia	169
Gemfibrozil, in hyperlipidaemia patients with peripheral arterial disease	207
<i>Ginkgo biloba</i> extract, in mild to moderate memory impairment in the elderly	350
Haloperidol, in acute psychotic states, compared with zuclopenthixol	594
—/levomepromazine, in aggressive, agitated elderly patients, compared with zuclopenthixol and melperone	615
Heparin, low molecular weight, deep vein thrombosis prevention in abdominal surgery	572
—, —, — in orthopaedic surgery	594
Hidrosmin, in chronic venous insufficiency of the lower limbs	623
Imipramine, in depression, compared with fluvoxamine	177
Immune sera, SER-316, in lumbar osteoarthritis	413
Indomethacin, in osteoarthritis, compared with etodolac	309
—, in rheumatoid arthritis, compared with acemetacin	332
—, controlled release, in osteoarthritis, compared with standard capsule formulation	128
—, —, —, compared with sustained-release diclofenac sodium	135
—, —, —, in post-operative pain, pre-operative use	662
—, —, —, in rheumatoid arthritis, compared with standard capsule formulation	121
—, —, —, compared with sustained-release diclofenac sodium	143
Ketorolac, in post-operative pain after orthopaedic surgery, compared with buprenorphine	343
Melperone, in aggressive, agitated elderly patients, compared with zuclopenthixol and haloperidol/levomepromazine	615
Mianserin, in depression, compared with fluvoxamine	234
Midazolam, with flumazenil, in paediatric bronchology	552
Naftidrofuryl, in moderate senile dementia	379
Naproxen, in acute gout, compared with etodolac	423
—, in rheumatoid arthritis, compared with flurbiprofen	76
—, in osteoarthritis, enteric-coated compared with standard tablets	540
—, in osteoarthritis and rheumatoid arthritis, enteric-coated compared with standard tablets	640, 652
—, gel, in soft-tissue injuries	242
—, —, —, compared with flufenamic acid gel	249
Nifedipine/atenolol, in hypertension, long-term treatment of the elderly	66
—, —, —, dose-finding study	108

Niflumic acid, gel, in uncomplicated ankle sprains	93
Nimesulide, in paediatric practice, antipyretic effects	296
Oxofloxacin, bioavailability of different formulations	282, 479
Pentoxifylline, in vascular atherosclerotic disease, microrheological study	263
—, in venous leg ulcers	547
Pethidine, in renal colic, compared with diclofenac sodium and with a dipyrone/ spasmolytic combination	366
Phenothrin, liquid shampoo, in head louse infestation, compared with carbaryl lotion	466
Piroxicam, in ankle sprains, compared with diclofenac potassium	268
—, in osteoarthritis, compared with etodolac	255, 401
—, in rheumatoid arthritis, compared with etodolac	497
Pravastatin, in familial hypercholesterolaemia, effect in relation to low density lipo- protein receptor activity	100
Ser-316 suppository, in lumbar osteoarthritis	413
Spiroolactone/furosemide, bioequivalence of different formulations	450
Sulodexide, in peripheral vascular disease, effect on blood viscosity	325
Temazepam, fixed-dose reduction regimen for withdrawing benzodiazepine hypnotics	390, 394
Tenoxicam, in rheumatic disorders	471
Terbutaline, inhaled, in mild asthma, changes in patient lifestyle	441
Topical antibiotic/corticosteroid formulations, use in otitis externa	12
Trazodone, in mixed affective disorders, compared with dothiepin	34
—, controlled-release, in depression	160
Triamterene/chlorthalidone, in hypertension, effects on blood pressure, serum potassium and electrolytes	430
Urapidil, effect on 5-HT uptake and 5-HT induced platelet aggregation	86
Zuclopenthixol acetate, by injection, in acutely disturbed psychotic patients	58
Zuclopenthixol, oral, in acute psychotic states, compared with haloperidol	594
—, —, in aggressive, agitated elderly patients, compared with haloperidol/levomepro- mazine and with melperone	615
